Virginia

Thank you for the latest version of R5's Rover pipeline scoping comments. I thought you had done a great and extensive job in pointing out the important parts for scoping. Looking at the letter I only had two really quick comments. Feel free to take or leave any of the below. If you have any questions, need for clarification, or want to talk about anything please feel free to give me a call at 215-814-2953 or email me back.

Thank you again

Tom

Ken and Virginia –

Thanks for sending the draft letter; attached are our suggested edits. We need to get this to Cynthia early Wednesday morning; can you take a look and let us know whether you are comfortable with our edits so we can send her a clean copy to review?
